

Trauma-Informed Care

FALL 2022

VIRTUAL Series: Module 1, parts 2-3

Childhood trauma is our single most important public health challenge. Trauma Informed Care (TIC) trainings are the first step in working towards a trauma-responsive program that supports ALL children.

TIC, Module 1 will help you understand the effects of trauma and early adversity and practices to support children.

So That's Why.

Thursday, October 27, 2022
6:30 pm - 8:30 pm

Learn the impacts on brain development from toxic stress that are seen in behavior, learning and typical development. Understand and recognize triggered behaviors.

What Can I Do?

Thursday, November 17, 2022
6:30 pm - 8:30 pm

Learn some key strategies that use relationship-based approaches to support healing and build resilience in young children.
