

Virtual Childcare Provider Workshop

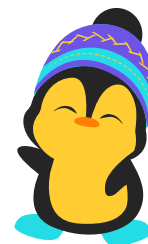

Explore Math in Fun Ways
and Become A Math Superhero!

THURSDAY, JANUARY 15, 6:30-8PM

Let's Learn Together!

Young children are naturally interested in math and it's common for them to say that they like math and are good at it. (What?!)

Join us to learn about ways to nurture that enthusiasm (and yours) and keep that attitude going! Check out the new brain science behind math success and become the "math person" you were always meant to be!

Please RSVP to:
Carol Ledesma
Provider & Parent Educator
clesma@catalystcomm.org
530.541.5848 ext 109

Take home a STEM Curriculum Bundle when you attend the full training and are an FFN Provider or a Family Childcare Provider in El Dorado or Alpine counties.
