

Parent Workshop

The Power of Play: How Young Children Learn

Location

Virtual-Zoom

Date

Thursday, July 23rd
6:00pm-7:00pm

For young children, play isn't just a pastime—it's their full-time job! It's the natural way they make sense of the world, build resilience, and lay the foundation for future academic success. If you want to maximize your child's development through simple, everyday moments, this workshop is for you.

Join our virtual workshop to discover:

- How everyday play naturally sparks complex problem-solving.
- The unique power of "open-ended" play vs. digital screen time.
- Tons of practical, budget-friendly ideas and activities you can easily try at home.

Free Take Home Gift!

We are raffling off 3 play kits for participants who stay for the full training!
