

Little Scientists, Big Discoveries: STEM Series

Part 1 & 2

Virtual Child Care Provider Workshop Series

Transform everyday play into rich STEM (science, technology, engineering, and mathematics) learning! Join us for a practical, 2-part series designed to boost your confidence, optimize your classroom, and ignite children's natural curiosity, no expensive kits required!

Part 1

Thursday October 22nd
6:30pm-8pm

Part 2

Thursday, November 5th
6:30pm-8pm

Part 1: Seeing STEM in Everyday Play

- Spot the STEM: Recognize the science, tech, engineering, and math already happening in daily play.
- Ask Better Questions: Learn open-ended prompts that build curiosity and critical thinking.

Part 2: STEM in Action

- Build Low-Cost Centers: Create hands-on discovery spaces using upcycled loose parts.
- Storybook Challenges: Pair popular picture books with fun engineering activities.

Free Learning Toolkit!

Eligible childcare providers who attend Part 1 AND Part 2 of the series will get a chance to win a STEM learning kit!

(For providers in El Dorado & Alpine County)
